

Record part of a screen using Quicktime .png

Last Modified on 11/16/2018 11:00 am EST

1. Open the Quicktime Player app.
 2. Choose File > New Screen Recording or CTRL Command N.
 3. Now select the area you want to record.
 4. Press the button in the middle of the selected area that states: Start recording.
 5. To stop, there will be a squared stop button that appears in the menu bar.
