ODS EXAMS (Online)

Last Modified on 02/27/2019 5:09 pm EST

Online students will need to register with ODS in the same manner that a traditional student will. To register for ODS services, please follow the steps at the following link: https://www.mcneese.edu/ods/registering_with_the_office_of_disability_servic.

If the exam for the course that you are in is web-based, the professor may have you take your exam in a separate Moodle shell, or duplicate the exam in the main course and grant you restricted access. You will need to notify your professor that you are registered with the Office of Disability Services so that they will know that you are to have extended time (i.e. time and a half) on your quiz or exam.

For more information on the Office of Disability Services, click here .
