Information Technology Resources Policy

The purpose of the policy is to guide all users in the acceptable use of IT resources at McNeese State University.

McNeese State University provides access to Information Technology (IT) resources in support of its vision, mission, philosophy and responsibility for education, research and service in Southwest Louisiana. Accordingly, the University encourages and promotes the use of these resources by the University community, within institutional priorities and financial capabilities. Access to, and use of, these resources and services are privileges which must be accepted in strict compliance with all applicable laws and with the highest standards of ethical and professional behavior.
